Artech Industrial Kiosks are a single-piece touchscreen solution with integrated industrial keyboards, available with 15", 17", and 21" screen options. Designed to be positioned in various industrial areas, including manufacturing facilities, these kiosks offer high performance and durability with their dkp sheet metal robust design, extra protection from electrostatic powder coating, filtered fan system/USB port output, and thin industrial dust-protected metal case. Customizable color options are also available to aesthetically fit into any industrial environment.

MAIN ADVANTAGES

- **Single-Piece Touchscreen:** User-friendly interface and easy interaction.
- **USB Port Output:** Easy connectivity and expandability.

KEY FEATURES

- **Multiple Screen Options:** Flexibility with 15", 17", and 21" screen sizes.
- **Robust Design and Electrostatic Powder Coating:** Durable structure and longevity.
- **Filtered Fan System / USB Port Output:** Optimizes system cooling and provides easy connectivity.
- **Thin Industrial Dust-Protected Metal Case:** Enhances durability.
- **Customizable Color Options:** Offers aesthetic customization.
- **Integrated Industrial Keyboard:** Ensures ease of use.
